EDUCATION

•Indira Gandhi Delhi Technical University for Women

Bachelor of Technology, Computer Science and Engineering

2025

CGPA: 8.78

•Greenway Modern School

Central Board of Secondary Education

2021

97.8%

EXPERIENCE

•Nomura | IT Intern - Identity Governance and Administration | Mumbai

Jan 2025 - June 2025

- Completed **Saviynt University L100 certification**, covering fundamentals of Identity Governance and Administration (IGA).
- Analyzed **10+ governance workflows** in Saviynt related to **Infrastructure as Code (IaC)** and **Identity and Access Management (IAM)**, identifying process improvements and documenting key dependencies.
- Explored and applied **REST APIs** to simulate workflow interactions, enhancing understanding of integration points between applications and governance systems.

•Novus Hi-Tech Robotic Systemz Ltd | SDE Intern | Gurugram

Jun 2024 - Aug 2024

- Designed and developed the **Novus OmniFleet mobile application**, integrating frontend and backend modules to deliver client specific fleet management solutions.
- Optimized **fleet tracking for 500+ vehicles**, improving real-time monitoring and operator oversight in the OmniFleet ecosystem.
- Collaborated with the **Autonomous Driving and ADAS team**, contributing to automotive intelligence features that enhanced **safety and operational efficiency**.

•Research Internship (IGDTUW) | Research Trainee | Delhi

May 2023 - July 2023

- Researched **blockchain frameworks** with a focus on **security vulnerabilities and risk analysis of Non-Fungible Tokens (NFTs)**, evaluating their impact on trust and digital asset integrity.

TECHNICAL SKILLS

Languages: C++, Python, C, HTML, CSS, JavaScript, Solidity, Dart

Frameworks & Libraries: React.js, Node.js, Express.js, Flutter, React Native, Three.js, GSAP, MaterialUI, Bootstrap

Databases: SQL, MongoDB

Tools & Platforms: Saviynt, Git, GitHub, Postman, NPM, Vite, Android Studio, Remix IDE, Ubuntu

Core Concepts: Data Structures and Algorithms, REST APIs, Authentication & Authorization, Database Schema Design, Operating Systems, Computer Networks, Object Oriented Programming,

PROJECTS

•Fake News Detection on Online Social Media

2025

- Developed a hybrid **Machine Learning and Explainable AI** system for fake news detection using **Python, Scikit-learn, LIME, SHAP** and **GradCAM**.
- Achieved **91.78%** accuracy on LIAR dataset; extended to multi-modal architecture using **PyTorch** and Fakeddit dataset with **97.58%** accuracy.
- Integrated XAI tools to improve transparency and interpretability for both text and image inputs.

•YelpCamp | Project Link

2024

- Developed a complex, full-stack application using the **MERN stack** and **RESTful APIs**.
- Implemented **full user authentication and authorization** from scratch, managing cookies/sessions and mitigating **XSS** vulnerabilities.
- Integrated a **cloud database**, secure **image uploads**, and **map geocoding**, building a responsive UI with **Bootstrap 5** and **MaterialUI**.

•AeroTrack | Project Link

2023

- Built a responsive multi-step booking interface using **Bootstrap 5, JavaScript (ES6+)**, and **Swiper** for seamless UX.
- Engineered a real-time flight tracking system using **REST APIs** to track global flights by route or number with a live data feed.
- Developed a premium, glassmorphic UI featuring **3D airplane animations** using **Three.js** and **GSAP** for dynamic storytelling.

RESEARCH & PUBLICATIONS

“Multi-Modal Fake News Detection on Online Social Media using Machine Learning and Explainable AI” – Presented at **CICBA 2025**, Jadavpur University.

“Study on Fake News Detection on Online Social Media using Machine Learning and Explainable AI” – Published in **Springer Nature, Lecture Notes in Networks and Systems (LNNS), Vol. 1495**, Proceedings of **DoSCI 2025**.

ACHIEVEMENTS

Microsoft Learn Student Ambassador: **Top Performer** in App Development cohort

NPTEL: Secured **Elite tag** and **Silver medal** in the course **The Joy of Computing using Python**

Research Showcase: Secured **1st position** in college showcase for the project **Fake News Detection on Online Social Media**

POSITIONS OF RESPONSIBILITY

•Head Coordinator, Research and Development Team E-cell, IGDTUW

•Education Mentor, Desh Ke Mentor Centre of Sustainable Development
